

Share location with Ovi Maps

Share memorable moments with your Facebook friends

In Ovi Maps you can share your real life location and what you're up to with your Facebook friends in a fantastic new way. Publishing not just your location by coordinates and address, but also by the semantic name of the place you are at – with links to the location and map on Facebook so friends are able to read your status updates and join the conversation.

How to share location in Ovi Maps:

- 1. Open Ovi Maps:** You can share your location directly from Ovi Maps. Just tap on the dedicated icon or menu item
- 2. Add the Home Screen Widget:** More easily, you can share your location from the Home Screen of your Nokia device, just add the corresponding widget
- 3. Select where you are:** Your device detects your real life location via GPS/A-GPS or network positioning. You may share the street address you are at or a meaningful place from the nearby points of interest (POIs) or a favorite place saved on your Ovi Maps.
- 4. Enter your status:** You can also let others know what you are up to.
- 5. Attach a photo:** To capture the moment and make it more memorable, you can also take a photo and share it with your friends.
- 6. Go to Facebook:** Open your Facebook profile and see what you are sharing. Check out if your friends have left any comments and keep the conversation going.

Ovi is going to let you share your location in a fantastic new way. You can download the new Ovi Maps, now with Share location and free Walk and Drive Navigation, at nokia.com/maps
